REMARKS

The above-amendments correct formal errors in the specification, and add a new claim 5 directed to the embodiment of 2.

The amendments to the specification are identical to those made in the parent application.

The embodiment of Fig. 2 was identified as a non-elected species in parent application Ser. No. 10/107,458. New claim 5 is believed to be allowable for the reasons stated in the response submitted on June 19, 2003 in the parent application.

Having thus amended the application to place it in condition for allowance, early and favorable action on the meris is requested.

Respectfully submitted,

BACON & THOMAS, PLLC
